

Glo Brite® 7650-AS1-1

Stair/Leading Edge Marker, Perimeter Demarcation, and Door Frame

Glo Brite® 7650-AS1-1 consists of an aluminum based system with a construction adhesive to permanently adhere to walls, floors, door frames, obstacles or stair leading edges. It meets the 2009, 2012 and 2015 International Building Code and International Fire Code for the marking of stairwells in high rise buildings. Glo Brite® 7650-AS1-1 is a permanent solution for marking stairs/leading edges, landing perimeters and door frames for high rise stairwells.

Available Sizes

7650-AS1-1
