

SideWalk[™]

Outdoor Graphics Media

**Social distance.
Facemask required.
Stand here.
Wait there...**

As we start to get back to business, the pandemic-related messages you need to deliver and the actions you need to reinforce are not just important, they're life-safety important. For messages that need to be posted outside on the ground, facility managers are specifying Jessup **SideWalk[™]** graphics media because it's safe, simple, cost-effective, durable and eco-friendly.

How to make the right decisions when choosing graphics media materials.

The Top 6 reasons to choose Jessup SideWalk™ media for outside ground graphics:

- ✓ **Safety:** Certified to NFSI standards for anti-slip safety 
- ✓ **Simple:** Ready to install after one pass on a printer (UV inkjet or latex inks); just peel and stick
- ✓ **Cost-effective:** No expensive lamination or cost-prohibitive coatings required to protect graphics
- ✓ **Durable:** Stays stuck up to 12 months on concrete, asphalt and more when installed to manufacturer's specifications
- ✓ **Eco-Friendly:** Follow directions and it leaves no residue when removed
- ✓ **Support:** Visit www.jessupmfg.com for resources to make your job easier
