

Wall01 Glo Brite® Application Instructions

Issue Date: 7/1/2016 Version 1.4

Application

- Recommended for indoor use only.
- Wipe down the application surface with a soft cloth.
- Peel a 6” strip of liner from the back side of graphic and crease the liner, being careful not to touch the adhesive.
- *Do not remove the entire liner before applying, as this may cause excessive air bubbles.* Orient the graphic to the surface, gently apply the exposed adhesive surface, and slowly continue to apply the graphic by removing the balance of the liner as you are hand applying.
- Use a soft rubber roller or squeegee on the surface of the graphic to remove any air bubbles, making sure you are getting 100% adhesion to the surface.
- Ready for immediate use, no need to wait.

Clean Instructions

- When the graphic is visibly dirty, clean with a soft cloth, soap and water.
