

FLEX TRACK®

TAPES AND TREADS

Category Vinyl

Non-abrasive, embossed PVC tapes, strips, bathtub and shower mats, designed for indoor wet and dry applications.

Flex Track® Fine Grade 4100

Flex Track® Fine Grade peel-and-stick treads, bathtub mats, and tapes are used to prevent slips and falls in homes, health clubs, long-term care facilities, and other places where people walk in socks or bare feet. Flex Track® 4100 is antimicrobial, mop friendly and has an aggressive adhesive system for the longevity of application. Available in clear, sandstone and white and a variety of tape width and tread sizes.

Possible uses:

Pools, hot tubs,
jacuzzi

Boats

Showers, baths,
spas

Health clubs

FLEX TRACK®

TAPES AND TREADS

Category Vinyl

General purpose heavily embossed anti-slip vinyl that adheres to metal, sealed wood and plastics.

Flex Track® Coarse Grade 4200

Flex Track® Coarse Grade is a heavily embossed, anti-slip PVC that was developed for excellent traction for vehicles and equipment like lawn mowers, boat trailers, high impact exercise equipment and other applications that require safety for active movement. This general purpose vinyl adheres to metal, sealed wood and plastics and is available in black, clear and white and a variety of tape width and tread sizes.

Flex Track® Messaging Films 4215

Flex Track® Messaging Films provide important safety messages in your facility while providing non-slip surfaces for foot or vehicle traffic. All of Jessup's Messaging Films are designed to meet OSHA 1910.145 specifications for accident prevention, signs and tags. Popular messages include Caution, Slippery When Wet, Caution Do Not Enter, Fire Exit and more.
